

IARR Awards Committee Goals 2020-2022

1. Review all processes involved in calling for nominations, the review process itself, and corresponding timelines. Assign initial set of responsibilities so members can plan accordingly.
2. Generate ideas about how to increase the number of nominations that IARR receives.
3. Review the calls for the awards and modify them where needed.
4. Review and discuss criteria for selecting IARR Fellows, including ways to solicit additional nominations.
5. Review and discuss criteria for selecting the International Scholar Award. Communicate with Membership committee to generate ideas.
6. Discuss development of an "emeritus or retired scholar award" to engage retired scholars back into IARR.
7. Discuss how we can make the "fellow" status more special – running list on website, conference reception, etc. Should we take lead from other associations?
8. Solicit, review and make decisions on the awards September 2021 – March 2022.
9. Confirm that 2022 award recipients are diverse (gender, discipline, international, etc.).
